

## FOCUS MIG 130 PFC ROBUST AND PORTABLE MIG WELDING MACHINE

A robust and portable mono-phase MIG welding machine designed for DIY repairs.

# FOCUS MIG 130 PFC

## DESIGNED FOR DIY REPAIRS

The Focus MIG 130 is a robust and portable MIG welding machine which is perfect for repair of your wheelbarrow, trailer or garden tools and other minor repairs.

Focus MIG 130 is designed for welding with 0.8 mm wire and has room for 5 kg wire reels. Reversed polarity for welding with innershield wire (without gas) is a standard feature.

The simple control panel makes the Focus MIG 130 very easy to operate; once you have set the wire feed speed and voltage, the machine is ready to weld.

Focus MIG 130 is a mono-phase (230 V) machine featuring PFC (Power Factor Correction), which allows you to weld with a long mains cable or with a generator as power source.

### ACCESSORIES

- ML 161 torch including 3 m cable,
- 3 m earth cable,
- carrying strap
- 16 A Schuko plug.

Control panel for Focus MIG 130

Focus MIG 130  
- designed for DIY repairs

Trolley with cylinder holder

### OPTIONAL EQUIPMENT

- Innershield wire (for welding without gas)
- Trolley with cylinder holder
- Focus<sup>2</sup> ADF welding helmet (81910599)
